

FACULTY DEVELOPMENT

QUALITY ENHANCEMENT PLAN SHARED INQUIRY TRAINING

THANK YOU

Thank you for attending the Shared Inquiry Training hosted by the QEP Faculty Development Committee. For those who missed the training, here are some of the outcomes:

- The Shared Inquiry training provided faculty with the tools necessary to generate active student learning in the classroom.

- Faculty worked hands-on with many techniques to improve their in-class discussions and students' reading comprehension.

- The Shared Inquiry training included representatives from each division,

including every common curriculum area.

- Common curriculum faculty learned to choose relevant texts, to create critical thinking opportunities for students, to encourage collaborative environments, and to keep up the energy in classroom settings.

- Students will certainly benefit from their instructors' Shared Inquiry training. They will enjoy greater depth in classroom discussions, more collaboration with peers, and enhanced understanding of texts.

UPCOMING FACULTY DEVELOPMENT ACTIVITIES

- *Faculty Development Survey* (April): We will use the data collected to guide our committee so please provide feedback.

- *Shared Inquiry follow up brown bag lunch* (April)
