Sample D Paper Essay

Why do you think people still go to movie theaters when they can rent videos and DVDs and download movies from the Internet?

There is all kinds of ways to get movies this day and time, people can rent, burn, download, or go to the movie theater to watch a movie. Most people like to go to the movie theater for many reasons. Some people just like to get out of the house or just to have something to do. Some like going to the movies as a nice date place. Then some people go to the movies because it is more exciting to see a movie somewhere than their house.

Most people do not like to sit in the house all the time, they like to get out. When there is nothing else to do people tend to go to the movies or when there is no where else to go people will go to the movies to enjoy watching a movie other than their house or friend’s house.

There are people that like to go to the movies on a date. The movies is the most common place to go on a date, it is a dark, nice, and cozy environment to spend time with someone you like or love. It is a much better place to go on a date than a pizza place, the mall or a amusement park. People enjoy the person they came to the movies with more than anywhere else they would go.

The main reason people go to the movies is because it is more exciting to go see a movie with several people, than a couple of people at home. The movie is more enjoyable with several people because it just seems like, the funny parts are funnier, the sad parts are sadder, the drama movies are more dramatic, and the action movies seem like they have more action when going to the movies. Some people go to the movies to
get the full effect of the movie or to see others reaction on certain parts. People can have the same movie at home and will go to the movie theater, so they can get the whole effect of the movie.

    Overall, I think that people prefer to go to the movie theater to watch a movie, even though it might cost more than watching the movie at home. When you do not have nothing to do, go to the movies, when your on a date, go to the movies, and when you want more excitement out of the movie, go to the movies. Going to the movies is something that will never fade, because there is always a new movie coming out, so it is not like people are watching the same movie over and over again. But there are people that will do that sort of thing. To me, these are the main reasons people go to the movie theater.
